WELCOME TO SARANI PHOTOGRAPHY

My Photography

After years of wedding photography experience, I have developed a style that is a perfect mix between fine art photography, where I try to photograph your passion, your love, your relationship and convert them into a picture you will be proud to use as wall art in your house; and photojournalism, where I capture all the details, spontaneous moments and ambiance throughout your whole wedding day.

I believe a complete coverage means to have a little bit of both the artistic images seen through the photographer's unique eye, and the spontaneous moments that make your wedding day yours, and yours alone.

I love life and I love weddings. Hopefully I will get to be part of your so special day!
