Catálogo

Since we heard about Mehndi in 2012 we fell in love with it. We knew we needed to start making history at Carolina Bellavista & Co.

We have gone down this road with joy, acceptance and success. We learn something new through every one of our clients in each wedding we are part of. This has been the key component of the steady quality increase of our job.

We only use natural henna prepared with the finest ingredients. We are also open to working with the henna provided by our client.

Our love for Mehndi has driven us to form a very successful team of skilled artists. We serve events ranging from smaller celebrations to large Sangeet ceremonies.

We believe we can improve ourselves every day by learning and reinforcing our technique continuously. We are passionate about offering you the best quality and friendliest approach to guarantee the best day of your life!
